Dear Sir:

In response to the Office Action dated 03/05/2004, please consider the following:

AMENDMENTS

In the Claims:

Please amend Claim 1 as follows:

1. (Currently amended): A male urinary system comprising:

a penis/urinary collection interface unit, said penis/urinary collection interface unit comprising a primary receiver unit for accommodating a male penis during urination, configured for juxtaposition to and temporary seating against the adjacent pubic area and comprised of substantially shape-retaining material, and a secondary containment unit in which said primary receiver unit is at least partially nested with proximal margins of said secondary containment unit and said primary receiver unit being fused to prevent fluid ingress or
